

Project Work «Thank Your Granddad for the Great Victory»

There is a saying «Those who fail to learn the lessons of history are destined to repeat them»

On the 22<sup>nd</sup> of June in 1941 fascist Germany invaded the territory of the USSR without declaring war on our country. They laid siege to the city like Leningrad, Sevastopol, Volgograd and others. More than 15 cities have made history as city-heroes. In the USSR was a terrible famine. More than 26 million people died on the battlefields all over the country. Finally, after 5 years of continuous bloody war Russians won an important Victory. Hitler's troops faced a complete defeat. Our country started to suffer heavy casualties.

Let us don't repeat the mistakes of the past years. Let our lives will never be such victims and deaths. Let human on the Earth don't shed a drop of blood. Let there will be peace in the world.
